

Cancer Victims Swamp U. of I. For Magic Cure

Available Only For Research Seekers Told

CHICAGO, (AP)—The University of Illinois said today it has received hundreds of requests for Krebiozen, the scarce new experimental drug that is available for research only in a limited number of cases.

These requests have come from doctors seeking quantities of the drug for experimental studies and from cancer sufferers and their relatives and friends.

The university stressed that the drug's value cannot be assessed

WASHINGTON, (AP)—The discoverer of a new experimental cancer drug conferred with government drug experts today concerning regulations controlling commercial distribution of any new substance.

Officials of the U. S. Food and Drug Administration (FDA) told a reporter they had explained to Dr. Stevan Durovic of Chicago the government's laws on such matters.

These laws specify that any new substance must first be established as safe for human use before permission can be granted for commercial distribution.

until it is tested on hundreds of patients in clinical trials which will be held for the next six to eight months in scattered cities throughout the country.

IN ITS PRELIMINARY trials on 22 advanced cancer patients, the university reported, eight died and 14 showed moderate to marked improvement.

The university was given only a limited supply of the drug by its discoverer, Dr. Stevan Durovic, former Yugoslav physician. Its entire supply is going to researchers elsewhere. Dr. Durovic made up a quantity of the substance in Argentina and brought some to the university for the tests.

The university is releasing the names of the cities to which the drug will be sent, but has not revealed the names of the doctors or research institutions receiving it. A university spokesman said this was to permit the doctors a free hand in choosing their patients for the tests.

THE DRUG HAS BEEN supplied to or is designated for experimental clinical trials in these cities: Chicago, Hines, Great Lakes, Oak Park, Winnetka and Evanston, Ill.; Bethesda, Md.; Seattle; New York City; San Francisco; Washington; Boston; Minneapolis and Rochester, Minn.; Philadelphia, Houston, Tex.; Indianapolis and Hammond, Ind.; Salt Lake City, Detroit, St. Louis; New Orleans and Atlanta, Ga.

Additional allocations will be made next week and the university said more cities may be included.

U. S. Surplus Of 2.7 Billion Now Seen

WASHINGTON, (AP)—The first balanced budget in three years and—better still—the second biggest surplus in history is virtually in the bag for fiscal 1951, now just three months from its end.

Some government officials said privately today fiscal 1951 shows signs of ending June 30 in a surplus approximating \$2,700,000,000—the size of the deficit President Truman predicted for this year in mid-January.

That indicates a whopping \$5,000,000,000 or more improvement in the budget outlook in the short space of less than three months.

Combining to produce this phenomenal turnaround are (1) a flood of tax receipts far greater than expectations and (2) lighter than expected expenditures, chiefly due to lagging deliveries on orders for military supplies.

The same factors give promise of cutting perhaps as much as \$3,000,000,000 of the \$16,500,000,000 deficit forecast by President Truman in January for fiscal 1952, starting next July 1, some government officials believe.

Golf Great Dies

EAST HARTFORD, Conn. (AP)—Jerome D. Travers, 64, who was one of America's greatest golfers, died last night at his home here. He captured the National Amateur crown four times between 1907 and 1913 and the United States Open in 1915.

The winning of five American golf titles by Travers was a feat that has been surpassed only by Robert T. (Bobby) Jones of Atlanta, Ga.

Park Board Revises Reynolds Field Set-Up

Gives Baseball Board Notice It Is 'Fired'

Will Revert to Old System of Passing the Hat

The Dixon park district has abandoned its plan to operate the Reynolds field recreation area under a "committee system" it was disclosed today.

Minutes of a meeting held in mid-February, made public only a short time ago, said that board members had agreed "that the baseball committee which was supposed to function the past season be discharged and the admittance charge be discontinued at the ball park the coming season and that a responsible personnel be appointed by the park board to schedule games at which voluntary contributions may be made to cover maintenance, lights, and games by those in attendance if they wish to do so."

The motion for abandonment of the plan followed last summer was made by John McDaniel and seconded by Esther Barton.

The activities committee appointed by the board last year, headed by Armand Riolpelle, when contacted by the Telegraph today, said that it had been informed of the board's action only a few days ago.

Plans Already Started

In fact the activities group was already making plans for the coming season. Members appeared non-plussed by the board's action and were particularly aroused at the inference that the committee had not been a "responsible" group.

They said that at the conclusion of the summer sports season they had submitted a report to the park district board listing the expenditures and income from operating the lighted softball park.

The report, furnished to the Telegraph, listed income of \$2,197.25 from gate receipts and \$300 from other sources for a total of \$2,497.

Expenditures Listed

Expenditures were \$2,459.81, leaving a balance of \$7.19. A spokesman for the committee said that expenditures included equipment, lighting costs, costs of umpires, scorers, announcers, gate-men and a list of other items.

This spokesman said that the park district board had contributed about \$500 to the operation of a full softball schedule. That sum principally involved permanent improvements, bleachers, lumber, etc., he said.

Also, this activities committee spokesman pointed out, the members had submitted to the park board on March 16, a month after the park board's action, suggestions for the improvement of conditions at the field.

Use Estimated

The report estimated that 35,000 persons used the field last summer in organized play. The field was in use five nights each week and on Sunday.

There was no indication then, the spokesman said, that the board had "discharged" the activities committee, an action they had already taken a month before.

Postman Makes Last Call to Young Detroit Cancer Victim

DETROIT—(AP)—The postman paid his last call today on six-year-old Bobby Hiftline.

The young cancer victim, who attracted nationwide attention through his mother's plea for mail, died today in a Detroit hospital. He had been in an oxygen tent for the last 24 hours.

Bobby was returned to the hospital last week, after suffering a relapse attributed partly to excitement caused by receiving more than 300,000 letters and packages from a sympathetic nation.

Bobby's mother, Mrs. Henry Hiftline, wrote a New York newspaper, asking for letters for her son, who liked to watch for the mailman. He had only a little while to live, she explained.

The story was picked up by the Associated Press, and the deluge of mail began.

It crammed his farm home on a lonely road near Jasper, Mich., flooded the village's post office and overflowed into the Baptist church in nearby Adrian. Finally, his parents asked for a halt. They said the excitement was proving too much for Bobby. Doctors examined him, said he was weaker and suggested he be removed to Henry Ford hospital in Detroit.

County Road Deaths Hit 15-Year Low

Five Lose Lives On Highways in 1950 Says Report

SPRINGFIELD — Lee county had the lowest traffic death rate in 15 years in 1950, Frank N. Barker, chief state highway engineer said today. Five persons were killed on Lee county roads during the year.

So far in 1951 one person has been killed, Mary Joan Metzger, 16, Amboy, was killed when the car she was riding in skidded into a culvert on Rt. 52, just south of Rt. 30, March 2, Clifford Mason, a Dixon resident was killed Jan. 17, but the crash occurred on Lowell park road in Oglesby county.

Two other Illinois counties, Edgar and Franklin, reported the lowest death rate in 15 years. Edgar had one fatality during 1950, and Franklin county had eight deaths.

Thirty-four counties reported five or less traffic deaths during the year. Hardin county alone among the 102 Illinois counties escaped traffic deaths in 1950. Hardin won the distinction for the county shared it in 1949, but lost second straight year. Calhoun lost last year with one death, Barker said.

Ten other counties established new high death totals. There was a 10 per cent increase in state traffic death totals.

Call Six for Draft in April

A Selective Service call for six men April 17 has been issued, according to Mrs. Carrie Root, secretary of the Lee county Selective Service board.

Also 10 men will be sent for pre-induction physicals April 4. Whiteside county has a call for four men for induction April 2 and Oglesby county must send 33 men April 5, according to state Selective Service headquarters.

Sandwich Loses Cranks—On Wall Phones, That Is

SANDWICH, (AP)—Sandwich has lost 1,100 cranks.

They were attached to old-fashioned wall phones throughout this town of 3,000 persons in southern DeKalb county.

The telephone system was converted this week to a modern dial system with cradle type phones.

New Rocket Ship to Fly This Year

WASHINGTON, (AP)—The air force expects to put into the air sometime this year a new supersonic rocket plane which will fly faster and higher than any man-ridden aircraft in existence.

The X-2—a diminutive little plane with wings swept sharply back to help it bore through the air at speeds far above that of sound—has been building for three years. But only now is it beginning to approach the flight test period.

An air force spokesman told a reporter today the X-2 "is expected to fly before the end of 1951."

The X-2, like the X-1 which exceeded the speed of sound (761 miles an hour at sea level), is an experimental aircraft. Too small to carry anything but a pilot and instruments, it contains no armament or other equipment common to combat planes. Both models are built by Bell Aircraft corporation.

Czech AP Employee Missing in Prague

PRAGUE, (AP)—Thomas Svoboda, Czech employee of the Associated Press here, has been missing a week and is believed to be under arrest.

The Czechoslovak ministry of information, asked to investigate, said today it had not yet been able to trace him but was still trying. Police have told Svoboda's relatives they do not have him on their books.

'Mad Poet of Amboy' Denied Freedom Bid

Convicted Slayer Makes 21st Try For Habeas Writ

The 21st petition for a writ of habeas corpus by Charles Skinner, the "Mad Poet of Amboy," was denied today by Circuit Judge George C. Dixon.

Skinner, serving a life sentence at Menard penitentiary for the murder of Olive Derwent, Amboy, in 1935, claimed he had been arrested illegally because Sheriff Ward T. Miller had no warrant for arrest and Skinner was held two days before arraigned on the charge.

He cited that the U. S. court of appeals revoked the conviction of Judith Coplon, convicted of turning atomic secrets over to the Russians, because the FBI arrested her without a warrant.

Repeats Question

State's Attorney Morey C. Pires today brought out that Skinner had raised the same question of his arrest without a warrant in several other of his appeals. The only new angle was reference to the Coplon trial, Pires said.

The state's attorney added that when Skinner was first arraigned he was held for assault with intent to commit murder because Miss Derwent was still alive. He said the only time an arrest without warrant can bear on a case is when a confession taken while the suspect is held is brought before the court during a trial or when evidence taken during a search is placed before the court during a trial.

Gives Opinion

Pires said he believes the reversal in the Coplon case hinged on this last provision. In the Skinner case there was no question of a confession or evidence taken during the period he was under arrest without warrant. Also an officer is empowered to arrest a suspect without warrant if the officer believes the suspect guilty of a crime, Pires stated.

Public Defender Walter W. Stevens, Paw Paw, said he had nothing to do with the filing of the petition for writ of habeas corpus. Then he added he had obtained a proof of the proceedings in the Coplon trial. According to Stevens the court of appeals ruled that constables and other officers had the power to arrest persons believed guilty of crimes.

However, the defender added, the appeal court held that the Federal Bureau of Investigation does not have this power and should have had a warrant for Miss Coplon's arrest.

In conclusion Stevens said, "I admit I can not conceive the point Skinner is raising in this petition."

Judge Dixon said he could find "nothing new in the petition," and agreed to its dismissal. The answer to the petition though filed through Pires was prepared by the attorney general of Illinois.

TV Sales Slump Brings Layoffs

CHICAGO, (AP)—A drop in sales of television sets has resulted in large scale layoffs among Chicago TV workers, industry and labor officials said today.

Some estimates placed the total number of workers given temporary furloughs at 10,000.

ST. PETERSBURG, Fla.—Here are three members of the all-girl crew of the schooner Tropical rescued last night from their first attempt to sail to Havana, Cuba. Their skipper, Le Hederman, of Cherry (Bureau county), Ill., called them a "swell bunch of girls."

Schooner With All-Girl Crew Towed to Port

ST. PETERSBURG, Fla., (AP)—Members of the all-girl crew who got lost and had to be towed back home on their first try at sailing from St. Petersburg to Havana, are already looking forward to next year's race.

The eight girls who sailed the Tropical from St. Petersburg Saturday ran into about every imaginable trouble short of being shipwrecked before a coast guard boat pulled them in here last night.

They and their male skipper, Le Hederman, owner of the 43-foot schooner, were as chipper as when they started—almost.

"I'll be back in the next Havana race with the same outfit—you wait and see," Hederman said as he came ashore. "They're a great crew and a swell bunch of girls. No crew of men could have done better."

The Tropical was barred by the race committee as an official entry because of inexperienced personnel. Hederman insisted the result could not be blamed on his crew.

Thieves Raid More Autos

Dixon's minor crime wave continues with two more victims reporting articles stolen from their cars.

Edward Spotts, 506 Van Buren av., told police Thursday afternoon someone stole a wheel and tire from his auto Wednesday night or Thursday morning.

John Mitchell, 407 Jackson av., reported someone stole a hub cap from his car.

Artillery Halts First Thrusts By Red Troops

Allied Command Expects Drive In Early April

TOKYO—(AP)—American big guns today stalled the first Chinese Red counter-thrust in six weeks along the Western Korean battlefield.

Doughboys spotted the Chinese moving along a mountain trail north of Uijongbu. U. S. artillery pounded the mountain and by dusk the Reds still had not pushed through the curtain of fire.

Bitter, close-range fighting flared all day throughout the area. The Americans won a commanding hill with a hand-grenade attack that rocked the Reds back on their heels.

The fury of Communist attacks forced Allied troops to give ground at several points along the front just south of the Red Korean border.

The Reds have moved 30,000 fresh troops into the front. Long lines of vehicles rushed Communist troops and supplies toward the battlefield.

Count 2,000 Vehicles

Allied air spotters Thursday night tallied 2,000 Red vehicles—the largest count of the war—jamming the Red Korean transport network.

The Communists appear to be massing troops and supplies for a spring offensive. Allied commanders predict the Reds will hit during the first three weeks of April. Seasonal rains turn the Korean countryside into a vast quagmire during that period. Deep mud would bog down U. N. armor.

The Communists threw their counterattack at Allied forces on the western front. Details were withheld.

But there was every sign the Reds had stopped their retreat and would make a stand along the Red Korean border.

Allies Pull Back

Field dispatches said Allied forces made fighting pullbacks in a few areas of the Western and Central fronts.

The Reds poured heavy artillery fire into Allied lines on the central front. Patrol clashes flared all along the battlefield.

About 70 American and Russian-built jet fighter planes clashed over North Korea Friday in two separate high-altitude dog-fights. U. S. pilots claimed at least one Red jet destroyed and two others damaged. There was no damage to American planes.

Report Typhus

Many of the fresh troops may be replacements for Reds felled by a triple epidemic of typhus, smallpox and typhoid fever. Allied sources said the diseases had hit untold thousands of civilians and Red soldiers in North Korea in recent weeks.

The U. S. Eighth army command says the Reds at any moment can throw nine rested or fresh army corps—some 270,000 men—into a drive.

Weather

Partly cloudy with a few snow flurries this afternoon, ending this evening. Slightly colder tonight. Saturday partly cloudy, little change in temperature. Low tonight 30. High Saturday 40. Low Saturday night 32. Northwesterly winds 20 to 30 miles an hour, becoming westerly 15 to 20 miles an hour Saturday.

Principal rainfall Sunday and Monday.

Two Newcomers Awarded Filmland Oscars

HOLLYWOOD—(AP)—Judy Holliday, the junk dealer's squeaky-voiced babe in "Born Yesterday," won the academy award last night from two mature actresses, Gloria Swanson and Bette Davis.

Jose Ferrer was given the top male Oscar for his swagging performance as the bulbous "Cyranos De Bergerac." For the first time in Motion Picture Academy history, neither winner was present. Both Miss Holliday and Ferrer are in New York.

Statuettes for the best supporting roles in 1950 were bestowed on Josephine Hull, the flitting sister in "Harvey," and George Sanders, acid-tongued critic of "All About Eve."

"Eve" Best Movie

"All About Eve" captured honors for the best film of 1950, winning five other awards as well. Its writer-director, Joseph L. Mankiewicz, walked off the platform with two Oscars, duplicating his feat of last year (for writing and di-

Jose Ferrer

recting "A Letter to Three Wives.")

It was a stunning victory for Yorker captured the honors from the highly touted performances of Miss Swanson in "Sunset Boulevard" and Miss Davis in "All About Eve."

Finally Chosen

Miss Holliday nearly missed playing the role of Billie Dawn,

which she created in the New York stage play. Columbia studios tested many other actresses before

Judy Holliday

selecting her. Ethel Barrymore accepted the award in her absence, lauding a "radiant performance."

Ferrer, another newcomer to films, spoke his acceptance from a New York party.

Ferrer himself had thrown the party at a small Spanish night club and invited both Miss Holliday and Miss Swanson.

Miss Holliday broke into sobs and could only say: "I'm beside myself with excitement."

Miss Swanson, currently appearing in a Broadway play with Ferrer, was a smiling loser.

For Miss Hull, it was the climax of a theatrical career that began in her native Boston in 1902. The 66-year-old comedienne won the warmest applause from the 2,800 spectators at the Pantages theater.

ly grabbing his Oscar and rushing offstage.

Other important awards: Motion picture story, "Fanny in the Streets," by Edna and Edward Anhalt; story and screen play (by same writers) — "Sunset Boulevard," Charles Brackett, Billy Wilder and D. M. Marshman, Jr.; Irving Thalberg memorial for high-quality production, Darryl Zanuck of 20th Century-Fox; best musical score, "Sunset Boulevard," Franz Waxman; best song, "Mona Lisa," by Mack David, Al Hoffman and Jerry Livingston, from "Captain Carey, USA."

Except for the heated race for the top female Oscar there was little suspense. And the fact that none of the leading winners would apparently be present put a damper on the festivities.

TV May Force the Rewriting Of Whole New Set of Laws

By JACK ADAMS

WASHINGTON, (AP) — Top government attorneys say television is about to force the writing of a whole new shelf of law books.

Just now, it's a wide open field. There is plenty of opinion, some of it loud, on what rights the TV camera has, or doesn't have, outside the studio. But to date, there is no federal law on the subject, and no major court has passed on any of the big questions involved.

The Kefauver senate crime investigation telecasts—smash hit of the TV year—brought the whole subject into sharp focus, without offering any final answers.

It's Your Guess
So, as matters stand, one man's opinion is as good as another's as to who has what rights in relation to TV and an individual under investigation, on trial, or simply called as a witness in this type of proceeding.

Among the many controversial questions raised by the Kefauver hearings, this one stands out: Can a public hearing be too public?

According to the lawyers, this one could be kicked around for years before the supreme court gets in the final word. It is expected that it will, someday, do just that.

What's "Open"?
About everyone agrees that when the founding fathers provided in the earliest American law for "open hearings," they had in mind a room that could hold a couple of benches so that neighbors could come in and see that justice was done.

There is the widest difference of opinion among lawyers and laymen on whether the audience of millions for the senate committee's examination of underworld characters was or was not a legal one.

The committee itself, on virgin ground, frequently moved cautiously.

Gambler Frank Costello forced the TV camera to limit its range

to his well-kept hands, providing an unexpected but prime dramatic setting for his verbal testimony.

Some Refused

While this went on, news photographers, both still and motion picture, "shot" him from head to toe. The full-view films went out over the networks after the restricted live telecast was over.

Other witnesses flatly refused to testify under the brilliant lighting required for televising. Some objected to the whole setup of lights, cameras and recording devices. A few complained they could not testify properly under these conditions.

When the committee failed to get the testimony it wanted, some were cited for contempt.

See Court Tests
All this adds up to a great many court tests to nail down who has what rights, not forgetting the public's.

The first challenges will come from those who complain these public hearings were too public. But government attorneys say it is not too fantastic to anticipate the fellow who may someday appeal the results of a hearing on the complaint that it wasn't truly public because it wasn't networked.

Take Testimony With Grain of Salt

ER ROSEIRES, Anglo-Egyptian Sudan, (AP)—You don't take the testimony of witnesses here with a grain of salt. The witnesses take the salt. This strange quirk developed at a court inquiry called in this Blue Nile province.

The Falubud tribesmen who live near here, refused to take the regular oath, saying they had their own form. The witnesses ceremoniously placed some grains of salt on their tongues—followed by a red pepper, a piece of charcoal and a grain of wheat—carefully chewed, then spit the lot out the nearest window.

They offered no explanation, but said it was now impossible for them to tell a lie.

Truman Has Made Up His Mind About '52 He Tells Reporters

By JACK BELL
WASHINGTON, (AP)—President Truman's announcement that he has decided what he is going to do in 1952 left lawmakers disagreeing today on whether he will run again.

Mr. Truman told a White House news conference yesterday he has made a decision but is keeping it to himself until he is ready to let the secret out.

The way he said it and the firmness with which he indicated the decision had been made, led some influential Democratic politicians to believe that, as of now, the president won't be a candidate for reelection next year.

Goose Is Cooked
Republicans in congress seemed generally to think that they have Mr. Truman's political goose cooked. Only a few of them believed he will run again.

However, Senator Murray (D-Mont.) told a reporter "These daily attacks on the president are likely to boomerang like they did in 1948."

"The people of the country don't like to see a man persecuted," he said. "Harry Truman may or may not make mistakes in judgment but he is honest and sincere and is trying to serve his country the best he can."

Won't Run—Bricker
Senator Bricker (R-Ohio) said he doesn't think Mr. Truman will run. He discounted a prediction by Undersecretary of Labor Michael J. Galvin in Lancaster, O., last night that Mr. Truman will win reelection next year by 56 per cent of the popular vote.

God pity the American people if that happens," Bricker said.

The Galvin forecast, contained in a speech draft circulated by the Democratic National committee, had no advance sanction from the White House, Mr. Truman said. He said it was a nice prediction but he couldn't comment on it, because he hadn't seen it.

When reporters asked about his plans, the president said that I

know what I am going to do and in due time I'll tell you about it.

There wasn't any rush about it, Mr. Truman said, because the national nominating conventions don't meet until June or July of next year.

Will Not Fire Dawson
The president bristled when a reporter asked if he intends to fire Donald Dawson, White House aide who has been accused of exerting influence on the Reconstruction Finance Corporation.

No, Mr. Truman said, he isn't going to fire Dawson.

Senator Wherry of Nebraska, the Republican floor leader, said he agreed that Mr. Truman is going to be a candidate again.

"But he won't win," Wherry said. "Immorality in the government and the administration's attempt to get congress completely to abdicate its powers are going to be the issues that lick him."

Distrust of the Man
Senator Dirksen (R-Ill.) told the senate yesterday there is in the country "a distrust of the man in the White House. He added that 'Faith is just a little weak in the present secretary of state.'"

Senator McFarland of Arizona, the Democratic leader, said he can't guess what the president plans to do.

"I'm no mind reader and I haven't talked to the president about it," McFarland said.

Gov. Stevenson Favors 'Little Kefauver' Committee for State

SPRINGFIELD, (AP)—Gov. Stevenson favors setting up a "Little Kefauver" committee to strike at crime in Illinois.

He gave his endorsement at a news conference yesterday to a proposal for a legislative investigation of crime, rackets and gambling.

Five senators led by Wallace Thompson of Galesburg filed a bill Wednesday to launch such an inquiry by 10 legislators. Thompson is Republican majority leader of the senate.

"I am not one of those who thinks that gambling can be wholly suppressed," Stevenson said in a statement handed reporters.

"But, we can and must root out the shadowy, super-government of crime and corruption that debauches public officials, mocks the laws of the land and fattens off the weak and the foolish," the governor added.

"The people can do this job if they get the facts. They can elect honest officials and knock out the gamblers, the racketeers—yes, and their allies, the corrupt politicians."

The governor said state police crackdowns have reduced organ-

ized gambling but that more remains to be done.

It's Our Job
"It is not the job of congress, it is our job to put our own house in order and keep it that way," he said.

He said he long has considered criminal law enforcement to be primarily a local responsibility.

If a "Little Kefauver" committee conducts an "honest, courageous, hard-hitting investigation," Stevenson said, its proposed \$50,000 appropriation would be money well spent.

Serious Problem
"If there is any other motive involved, it would be a waste of taxpayers money," he asserted.

"This is a serious problem and there is no place in it for political partisanship."

The governor said he "assumed" GOP and Democratic leaders will back his bills to outlaw slot machine manufacture, strengthen the state liquor commission's hand against gambling in taverns and stiffen penalties against dope peddlers.

The liquor bills are due for in-

roduction soon. The others are pending.

Stevenson said that unless it is given real power, the liquor commission "might as well get out of the business" of policing retail liquor licensees.

Clamp Down on Profitable Trade

BANGKOK, (AP)—Thai (Siamese) police and customs men have tightened measures against smuggling of dollar bloc goods to Singapore and Hongkong which is bringing smugglers in Thailand huge profits.

L. Thawin Sresthaphanichkarn, director-general of the foreign trade department, said prices of these essential goods were three times higher in neighboring countries.

He said the ministry of commerce was going to clamp stricter control over re-exports of these goods which have to be bought with valuable foreign exchange.

Free World Must Press Criticism of Tyrant Peron

History repeating itself can sometimes make an unpleasant sound. That's the kind of noise that's emanating these days from Argentina, home of the bush league dictator, Juan Peron.

Ever since Peron made it clear he intended to snuff out the great independent Buenos Aires newspaper, La Prensa, supporters of a free press in all parts of the world have been deploring his behavior.

Peron declared in reply that what goes on in Argentina is nobody's business but his. You don't need a prodigious memory to recall that Joseph Goebbels, Hitler's propaganda minister, said something very much like that when the world objected to the Nazis' Jewish pogrom in 1938.

Goebbels was wrong and so is Senator Peron. What happens to freedom anywhere is the business of all free men wherever they may be.

When a great voice of liberty has been silenced ruthlessly, as has La Prensa's, only the fearful and tyrannical will let the casualty occur unnoticed. The free will set up a clamor of protest.

This they have done in the case of La Prensa, and should continue to do so despite Peron's contemptuous comment that it's none of our business and that he doesn't care what we think anyway.

By his action Peron has sought to place himself and his government above the rules of decent conduct regulating free nations. Having thus chosen to isolate himself from the respected world fraternity, he deserves to be treated in the manner he has invited.

The free press of the world, and free governments as well, should pound him mercilessly so long as he holds power. His absurd posturings, his petty conceits, his frauds should all be exposed. He should be shown to the world for what he is—a four-cylinder Hitler who hasn't even one inch of stature in the world community.

American scientists already have done a pretty good job of puncturing Peron's wild story of new and distinct atomic energy discoveries in his country. The tale was patently an effort to distract attention from his La Prensa seizure and seize fresh prestige at the current Washington conference of the American republics.

Maybe the senor doesn't care what we think. But he ought to be made to listen to us anyhow. For there's really a good chance that the world's criticism nettles him badly, and gives him the nice, insecure feeling he deserves to have.

'In Sight' May Be Long Distance

Charles E. Wilson, defense mobilizer, says the time is "in sight" when the west will have sufficient military might to protect itself against the marauding Soviet Union.

This sounds like extremely heartening news. Let's hope that Wilson was not gazing through a telescopic lens when he made the prediction.

Farmer Know-How

If anyone imagines the American farmer has been left in the lurch by technical progress, let him examine a few figures: With a 12 per cent smaller labor force than in 1900, he's turning out twice as much food and fiber today. Even since 1940 farm output per man hour has shot up 35 per cent. U. S. ingenuity plainly doesn't stop at the factory door.

RUTH MILLETT

How to Make Hubby Think He's Head of the House

Some women overlook the importance of making the man the head of the house.

Important as it is to the happiness of the husband it's easily done.

Just remember:

To take his expressed opinions seriously. If he likes dinner ready when he gets home from work—have it ready. And don't hesitate to say once in a while in front of him: "We have dinner at such and such an hour, because Jim likes to eat as soon as he gets home." That's one way to make a man feel like head of the house.

To consult him on all important matters regarding the children. No man can feel like the head of his household if his wife decides everything that has to do with the children.

LET HIM LEAD IN ENTERTAINING

To feature him in the role of host. It's so easy for a woman to

take over when a couple entertain, using her husband only as a sort of errand boy, ordered to do this and that. But the woman who wants her husband to feel like the head of his house builds him up as a host.

To regard the house as "ours," not "mine." Many a woman talks about "my living room" and "my dining room furniture." Some even warn their husbands not to track up "my carpet" and to keep out of "my kitchen."

To take a husband's comfort into consideration when furnishing a house. If a man doesn't even have his own easy chair in the living room, how can he feel like head of his house?

To consult him before making social engagements. The wife who says: "I'll check with Jim" before accepting an invitation not only makes Jim feel like head of his house, but lets others know that he is.

IN HOLLYWOOD

By
ERSKINE
JOHNSON
NEA Staff
Correspondent

HOLLYWOOD, (NEA)—Looks like Sylvana Mangano has started something in Hollywood.

Movie dolls are throwing their diet charts out of the window and growing their own bustles.

I listened open-mouthed while Jayne Meadows sounded the battle cry of heft, blubber and girth. Red-haired Jayne pitched it to me:

"I've made up my mind to be as buxom as I can be. That's my personality. A womanly figure has always been buxom. Not until Hollywood came along, did the world go in for flat, thin, anemic women. I disapprove of that. It's unattractive."

Jayne slapped her hips smartly and added that she wasn't fat at all.

Just well-rounded in the right places.

Her husband, screenwriter Milton Krims, was right happy about her chassis, she let me know.

She's the AMPLE of his eye and she's going to stay that way, thank you.

What about . . . ? I reeled off the names of some movie queens who could slip under the parlor rug and not make a bulge big enough to notice.

"Skinny, undernourished, bony," Jayne snorted. "On the screen they look as if they can't make it."

REFUSES TO STARVE

Let other Duses nibble at the cottage cheese and spaghetti. Not our Jayne.

"Listen," fumed Jayne, "to act, to have energy under lights from six in the morning, you've got to have some food in your system. Solid food—steaks, chops, bread, potatoes."

"When I came out to Hollywood from Broadway to do 'Undercurrent,' they ordered me to lose weight. I told them that I had always been a big, buxom girl. But no, everybody at MGM had to have a figure like Katharine Hepburn. I didn't have enough strength to get through my scenes. I thought I was slipping as an actress. Brother, it wasn't the acting. It was the dieting. I was plain hungry."

"I started rebelling when I made 'Enchantment.' No starvation. I had curves and weight. Men who hadn't ever noticed me before came rushing up to tell me how voluptuous I looked on the screen. I'm heavy in my new picture, 'David and Bathsheba,' too."

"The camera puts 15 pounds on an actress? That's a myth. It varies with women. I'm tall and I've got a small waist. I can get away with weight."

Jayne's seen Sylvana and she's seen Jane Russell, too.

She's going to be right there when Hollywood awards Howard Hughes a medal.

"That man," sighed Jayne. "He doesn't want women all flattened out. Jane Russell's bigger than I am. And look at Ingrid Bergman, and Gene Tierney."

SMART LINE

Did I want to hear about the little trick she's worked up to keep every ounce of poundage on her shapely frame when a new picture role pops up? Maybe it will help some underfed movie siren who yells "Ouch" whenever she sits down in an unpadded chair.

Jayne whispered: "I hurry right over to the producer's office and say, 'Do you think I'm too thin? Do you think I should fatten up?' That's what you call the surprise attack. The boys gulp and stammer, 'N-n-no, you're just about right.' It works like a charm."

Jayne was an eye-fall on the Broadway stage, but Hollywood turned her into a brooding heavy in "Undercurrent." "Lady in the Lake" and some smoking-gun operas that she'd like to forget.

She was so rattled by it that people in Hollywood didn't know what to think of her, she mused.

"Why, Katharine Hepburn told a friend of mine that I was certainly a strange, morbid girl. Imagine this from Hepburn."

A producer even told her never to smile because "my teeth were too white and my mouth would look like a piano."

Jayne shrugged: "I didn't smile on the screen until I made 'The Luck of the Irish.' Director Henry Koster insisted on it. You know what? My mouth didn't look like a piano."

I shook my head sadly over the whims of Hollywood. Not many people know it, but once MGM made Ava Gardner a pad to hide her cleft chin. Imagine. Why that cleft chin is the prettiest thing about Ava. Well, one of the prettiest things about Ava, anyhow.

Lou Busch has quit Capital Records to free lance in the musical field. Wife Margaret Whiting stays on . . . Mark Stevens takes off soon for a 12-week singing tour of night clubs from Las Vegas to Florida. He's getting ready for TV.

This is a long-range strategy which might protract the cold war for years. It would mean the democracies must remain ever on

The Story That Comes Down Through the Years

The Doctor Says:
Ear Infection from a Cold
Needs Prompt Treatment

By EDWIN P. JORDAN, M. D.

"My five-year-old daughter," writes Mrs. L., "had a bad cold about two weeks ago, and for the last 10 days has had a little pus coming out of her right ear. Will this clear up by itself or is there something which should be done about it?" Mrs. L. should lose no time in taking her little girl to the doctor since there is danger of the child's developing a chronic running ear or even a mastoid infection.

There are probably hundreds of thousands of people who either have or have once had an ear infection similar to that of Mrs. L.'s daughter. The reason is simple: The middle portion of the ear connects by a tube or passageway with the nose, and infections from the latter easily pass up this tube to the ear.

Children are particularly liable to such infections and quite often this produces earache and requires a little slit to be made in the drum membrane so that the pus can escape, thus relieving the pressure which is causing the pain.

But the present generation of children is luckier than we were. Many of these middle ear infections can be nipped in the bud by giving the sulfa drugs or penicillin. And even more important these

drugs have almost wiped out one of the common and serious complications, namely mastoiditis.

The complication is a spread of the infection to the bone lying just back of the ear and it used to require a delicate and costly operation. Today the number of these operations has shrunk almost to the vanishing point.

ACT ON ACHE

Nevertheless it is important not to neglect an earache or a running ear. The ache usually comes first and this is the time to act by getting professional help. The development of a perforated ear drum or of a chronic running ear, which may be hard to cure can thus often be avoided. However, even in the long lasting cases of ear infection most can be done now than in the past.

In some of the most difficult ones an ingenious operation usually proves successful where other methods have failed. But a little care at the start is likely to save a lot of trouble later on.

Dr. Jordan will answer questions from his readers in a special column once a week. Watch for it.

QUESTIONS
and
ANSWERS

Q—What is said to have been the true foundation of the Swiss nation?

A—In 1921, three communities—Uri, Schwyz, and Unterwalden—were compelled to defend themselves against the ambitions of the House of Hapsburg. They formed the "Everlasting League."

Q—How did airplane spruce get its name?

A—This is a giant among the North American spruces and was so named during the first World War, because it furnished large used in the construction of airplanes.

Q—How did the expression "stealing thunder" originate?

A—Stealing thunder was coined in an early English playhouse. The material placed inside a cylinder to simulate thunder was taken out, with the result that the ominous sound was lacking when the cylinder was rolled. Someone had "stolen the thunder."

Q—Has the United States ever paid tribute to trade in foreign waters?

A—Yes, to the pirates of Tripoli and Algiers for the privilege of trading in the Mediterranean.

Q—Who gave the Joshua tree its name?

A—The Mormons, who read into its extended branches a symbol pointing them to the Holy Land.

SO THEY SAY

I never thought I would live to see the day that Senator Taft would try to tell General Eisenhower how to win a war. Maybe he (Taft) would rather be President than right.

—Sen. Robert Kerr (D., Okla.).

The 1951 undergraduate seems to have lost his grip on the future. He is concerned only with what may happen to him today. Loss in morale is understandable and tragic.

—Dr. E. Fay Campbell, Protestant clergyman of Philadelphia.

It is not only important to know how to think, but it is important to know what to think about.

—Umphey Lee, president SMU.

Unless (a man) . . . is definitely psychotic or psychoneurotic to such an extent that he has not been able to adjust to civil life he should be inducted.

—Col. Richard H. Eanes, U. S. Army Medical Corps.

The memory of the Chinese people and any Chinese history not written in Moscow will be enough proof that U. S. friendship (for China) has been and continues to be sincere and fundamental.

—Ernest A. Gross, U. S. delegate to UN.

Your son wants to invite a girl in a nearby town to visit in your home on the weekend of a dance.

WRONG: Tell him it is perfectly all right and to go ahead and invite the girl, and you do nothing about the arrangements.

RIGHT: You write a note to the girl yourself saying that you would like to have her stay in your home the weekend of the dance.

Pegler Explains Terms Under Which He Would Give Information for Use by a Congressional Committee
(Copyright, 1951, King Features Syndicate, Inc.)

I have insulted the so-called Buchanan committee of the house of representatives. I have accused it of hounding law-abiding citizens in the interest of questionable private organizations. On the whole, I have done everything I can to goad the Democratic members of this evil inquisition to some action which would enable me to show up vicious practices of congressional committees in dealing with their masters, the citizens of the United States. Not one of these Democrats has had the confidence to accept the challenge. They know I have got them over a barrel.

I acknowledge the right of congress to make citizens, whether good or "bad," attend committee hearings and give information which the committees believe, or pretend to believe, they require for the constitutional work of congress, the enactment of legislation.

But the political hounding of citizens, the theft of documents, the acceptance of stolen documents from crooks with axes to grind, the extortion of private information on irrelevant matters from citizens who do not know their rights or who are afraid to stand up for their rights, have gone too far. Congress, itself now has become disreputable.

Any "investigator" bearing credentials from any committee who ever comes to me demanding "all books and papers" on any subject, without specifying exactly what books and what papers, is going to get the surprise of his life.

First of all, he will have to prove that he is neither a crook himself nor a member nor secret agent of some pro-Communist political outfit or some gossamer dedicated to the proposition that Franklin D. Roosevelt was God almighty. I will require assurance that any private records which I do produce for the legitimate guidance of congress will not be photographed for the use of any gutter-press of the radio or the disgraceful Washington "press" corps, nor any blackmailer.

If I am asked to give testimony in "executive" session, a term which implies secrecy, I will insist that everybody present be put under oath to keep all my testimony confidential. Otherwise, some cheap shyster with an appetite for publicity and an affection for Soviet Russia may blab my "confidential" testimony to the claques of new deal "columnists" who, to the shame of our free press, are widely represented as honest journalists.

And I will demand the anti-Communist oath of all concerned, even in open hearings. I say that because, long after the harm was done, we were allowed to learn, quietly, that the long, lingering, phony investigation of "anti-labor" activities by the LaFollette committee and the so-called investigation of the munitions industry by the Nye committee which smeared our most useful manufacturers of military wares as "merchants of death," were Communist projects operated by the U. S. congress.

Those were damnable crimes done by congress. The reason why they have not been dramatized in proportion to the evil which they wrought is that history runs on. The young citizens of today were children then. The older citizens of today are just older fools. They would not have believed the truth even if we had been able to tell it to them at the time.

Robert M. LaFollette, Jr., of Wisconsin, let the Communists plant as his chief counsel John Abt, who has since been named in the spy hearings of the committee on un-American activities as a Communist, and Charles Kramer, who has been named as another Communist member of the same apparatus.

Years after the harm was done, Whittaker Chambers testified that Abt became leader of the Communist underground group within our government. Under oath, Abt refused to say whether he had even been a Communist on the ground that a truthful answer might incriminate him.

Elizabeth Bentley, another reformed member of the traitorous apparatus, testified that Kramer was a Communist and that his real name was Krevitsky.

Leon Pressman, who has since admitted that he was a Communist, and Alger Hiss, who has now gone to prison for perjury, were counsel for the Nye committee. Senator Nye, be it granted, was an innocent victim of this vicious strategem. But the citizen-victims of the inquisition are no better off for that. And the damage to men and firms in our first line of defense on the home front in producing munitions was not redressed by the belated and sidelong revelation of the truth.

A pair of Communist plants, operating under La Follette's authority, created the durable fiction that the fatal Communist riot at Republic Steel in South Chicago was a capitalist massacre organized by Tom Girdler. Girdler, to his great credit, fought them all at the time. I hope I am not immodest in saying that I was quick to challenge the fraud in general and LaFollette in especial.

The documents of the La Follette committee were published at enormous expense, in addition to the cost of the proceedings. There were 78 volumes, of 33,000 printed pages. LaFollette later admitted that Communists had "infiltrated his staff."

Jacoby on Canasta

Canasta Has Code of Honor

By OSWALD JACOBY
Written for NEA Service

The question of Canasta ethics is raised in a very frank letter from a Tennessee correspondent.

"In our foursome," he writes, "there is a good bit of talking back and forth that isn't intended to be talking across the board or cheating but which, of course, does oftentimes portray the nature of a person's hand. Typical remarks are: 'You don't need to be afraid to discard—I can't meld anyway.' 'Everything I have in my hand is what they have down.'"

"The other day during a game I had picked up in the discard pile a small stack that had in it six kings, and everybody knew there were six kings in it. Since these were relatively safe discards I started discarding them.

"As I was discarding the fourth king I said 'I hate to throw the last one of these down.' The opponent on my right said 'Have you discarded all six of those kings?' I told a deliberate lie and said 'yes.' On his next turn he proceeded to discard a king, and I immediately picked it up with the two kings I had in my hand.

"He refused to allow me to do this because he said I had told a lie. Can you offer any statement on this?"

This would be an easy problem to solve if there weren't such a lot of talking in that game. Ordinarily, you're not supposed to say anything during the play of a hand. If everybody gets away with some sort of improper statement it becomes very difficult to draw a line between what can be and what cannot be allowed.

If I had to make some rough-and-ready ruling in a case of this sort, I would cancel that whole hand. I would rule that even in a really talkative game a deliberate lie should not be allowed.

The only proper course is to say nothing at all during the play of a hand. If you feel compelled to pipe up, be as evasive as you

like but don't tell a complete lie.

For example, if your opponent asks "Have you discarded all six of those kings?" it would be all right to say "You'd know if you were counting" or "I've never thrown so many kings in my life" or even "Try me out and see."

Better still, for the third time, don't say anything at all. Don't ask any questions and don't give any answers.

Mr. Jacoby is unable to answer individual questions on Canasta from readers. However, he will include the most frequently asked questions in his column.

"This wagon illustrates the work of the home adviser and executive board in connection with the extension service and their co-operation," points out Mrs. Alvin Kehm, Compton, vice president of the Lee County Home Bureau board and membership chairman, in the above picture. Home Bureau vice chairman and their membership committees met for a membership drive kick-off dinner Thursday in Amboy. In the picture from left to right, are: Mrs. Frank Schinzer Jr., Ashton, Mrs. Ernest Norden, Ohio, and Mrs. Byron Blum, Dixon, all of the membership committee; Mrs. Glen Pfoutz, president of the Lee County Home Bureau; I. E. Parett, the speaker, and Mrs. Kehm.

Membership Drive For Home Bureau Planned Thursday

When vice chairmen and their membership committees of the 23 Home Bureau units in Lee county left the home bureau membership drive kick-off dinner and meeting, Thursday, they wanted to begin immediately to contact new members. Much enthusiasm was felt by the nearly 80 who attended the late morning and afternoon event at the Lee County Farm Bureau auditorium, Amboy, and heard I. E. Parett of the Illinois Agricultural Association speak.

Tris and yellow roses formed the floral centerpiece on the head table for yesterday's meeting and on each table a placard placed in a large potato told of some phase of this professional organization for homemakers.

Mrs. Glenn Pfoutz, Lee County Home Bureau president, presided at the meeting introducing Mrs. Alvin Kehm of Compton, county vice chairman and chairman of the membership drive. Mrs. Kehm introduced a number of the guests who included Don Cook, organization director of the Farm Bureau, who throughout the meeting gave words of help to the ladies for their coming drive. Also introduced were the executive board of the county and the ladies assisting Mrs. Kehm in the membership drive, Mrs. Frank Schinzer Jr., Ashton, Mrs. Ernest Norden, Ohio, and Mrs. Byron Blum, Dixon.

During the short business meeting, Mrs. Blaine Allen, county recreation chairman, announced the organization of a home bureau chorus. Practices will be held during April.

Helpful Suggestions
Even though they were being given a lesson in interesting new members, it wasn't a bit like school for the ladies, as Mr. Parett spoke in such an interesting, humorous manner, it was as if he was speaking to each membership worker individually. He stressed the point that no two people are suited for the exact job, pointing out that it would be best if some workers worked in couples while others worked by themselves.

A kick-off dinner, report meeting, and new member meeting, were among the suggestions given by the speaker, as was the point of knowing of members and non-members thereby insuring no repetition in seeking membership.

"Tell the person you are trying to interest in Home Bureau, your own wonderful experiences in the group," suggested Mr. Parett when telling Lee county's ladies aids in contacting the nearly 7,000 prospects for the drive. In his closing words, Mr. Parett urged this, "Don't let your organization stand still."

Membership information, containing the advantages of the Home Bureau, one of which is Blue Cross insurance, was given to the workers by Miss June Pilgrim, Lee county Home Adviser. Miss Pilgrim also told of a trip being planned by the Home Bureau of Lee county to the Tulip Festival in Holland, Mich., May 16, April 2 to 14.

There are 593 active members in Lee County Home Bureau with the quota for the drive having been set at 118. The drive is from April 2 to April 14, with a report meeting scheduled for April 16.

A little diced cooked ham and crumpled crisp-cooked bacon added to a shrimp-and-tomato-sauce dish make it extra-special.

Color Clings to Mouth

By ALICIA HART
NEA Staff Writer

Few things detract more from a woman's charm than carelessly-chosen, ill-used lipstick.

No matter how perfect your costume may be, its entire effect can be ruined by one greasy smear of color around your mouth or a streak of red upon your handkerchief, napkin, tea cup or glass.

A new lipstick may prove a boon to women wishing to avoid these beautiful pitfalls. Its virtues include not only long-lastingness but smear resistance as well.

Although the lipstick is non-only in appearance, its texture is sufficiently creamy to offer protection against drying of the lips, its makers claim.

For women who wish bright, colorful lips which are free from unnatural glistening or shimmering effects, the cosmetic firm suggests this procedure.

Apply this lipstick in your usual fashion, taking care to keep within a well-defined outline. Allow the color to get a few minutes and then blot your lips.

Use a tissue for this purpose, folding it around your fingers to prevent unintentional wiping by loose edges. Blot each lip separately, using a gentle pressure that moves from the outer edge of your lip inward toward your open mouth.

Makes Survey Then Orders Laws Enforced

Offers Aid If Cities Unable To Uphold Law

OTTAWA, (AP)—Sheriff Clayton C. Harbeck of LaSalle county said today he has told mayors of all communities in the county to stop gambling or he will do it for them.

Harbeck said he had mailed letters to the mayors stating he was "determined that the criminal laws of this state shall be enforced in this county during my term of office."

He made public the letters' contents today. Although they do not specifically mention gambling, Harbeck told newsmen they referred specifically to gambling. He added that he meant gambling in both private clubs and in public places.

The letters read: "Dear Mayor: "I am determined that the criminal laws of this state shall be enforced in this county during my term of office. To accomplish this, it is necessary that the activities of all law enforcement officers be coordinated and that each of them perform his duty."

Expects Enforcement
"You are the mayor of your city. You are its chief law enforcement officer. I expect you to fully discharge your duty as such. I believe in local government and enforcement of laws by local officers without interference on my part."

"You will have every opportunity to perform that duty. "If you do not, I shall not hesitate to take such steps as may be necessary to investigate any crimes committed in your city and to cause the arrest of the offenders."

Offers Help
"If you are confronted with a situation in which you need assistance, you may feel free to call upon me for help at any time. Cooperation between each of you and my office will rid this county of crime."

"Very truly yours, (signed), Clayton C. Harbeck."

During recent Kefauver committee hearings, Thomas Cawley, a LaSalle county gambler, testified the county was wide open and that he "was never bothered by the law."

Made Personal Survey
Sheriff Harbeck said he had made a personal "survey" of the county with regard to gambling before sending out the letter.

He said he gave "a clean bill of health" to the section north of the Illinois river, including the town of Mendota. The sheriff said he found a "few" slot machines in rural areas near Streator, and some in Seneca and Ottawa. None were found in Streator itself, nor in Peru or Oglesby, he said.

However, in the city of LaSalle the sheriff stated that of 82 licensed taverns, only 35 had no gambling devices.

Harbeck began his second term as sheriff in December. He previously served from 1942 to 1946.

Rockford Forger Given Probation

Roy Miller, 50, Rockford, was granted one-year's probation after he pleaded guilty to forgery when arraigned in county court Thursday afternoon.

Miller, through his attorney, Max Weston, Rockford, promised restitution of an \$84.60 forged check passed in Dixon July 26, 1950. Also he will pay court costs. The check was made on the Chicago Trust and Savings bank.

Miller was brought to the county jail from Winnebago county where he was arrested on another charge and released on bond.

Gives Baseball Board Notice It Is 'Fired'

(Continued from Page 1)

queried by The Telegraph today, said it was the desire of the board to furnish as many "free" park privileges as it was possible to provide. The abolishment of the gate charge (a small charge made on game nights) would serve that end.

Voluntary Gifts Needed
He felt certain that voluntary contributions would enable the summer program to function. It is assumed that the park board would underwrite any deficiencies or curtail the program should funds not be available.

He declared the board felt that the activities at Reynolds field last summer were "sloppily" handled. Employment of a paid supervisor, he felt, would better serve the purpose. The activities committee served without pay, but certain others connected with the staging of the games were compensated.

The Reynolds field lighted softball park was installed in the late fall of 1949 through a fund drive conducted by the Dixon Rotary club. Volunteers, including electrical union employees and others, contributed many hours of labor to the Class A park.

Board Members Aided
Establishment of the activities committee, under jurisdiction of the park board, was to relieve the park board members from responsibility of scheduling games. The committee promptly organized the numerous leagues and brought the city softball activity to one center. Previously it had operated outside the city at the airport diamond.

It was thought necessary to exact a small admission charge since such a method assured the committee operating capital. The "pass-the-hat" method was thought too uncertain. The park board, at that time, felt it was too burdened with other park responsibilities to be able to contribute any great amount of funds to the softball venture.

Community Players Dish Up Western Melodrama in 'Tish'

The Dixon Community Players served up a dish of melodrama last night at the Loveland Community House, old fashioned melodrama, with villain and everything, in the form of a three-act adaptation of Mary Roberts Rinehart's "Tish."

Besides its melodramatic flavor, "Tish" also has some spice of the Old West, with sheriff and bandits, as the story takes place in the Southwest near the Mexican border.

All the action takes place in the combination lunchroom and lobby of the "Eagle Hotel" where Letitia Carberry, commonly known as Tish, and her two old maid sisters are staying after an auto trip from the East.

Tish, the central character, is a forceful, domineering woman, who, when she reads about something, has to try it. She has the capacity for wrecking everything she gets her hands on, including a car and her nephew Charlie Sands' airplane.

Then He's In Love
Nephew Charlie is a newspaper reporter, stage version of course, and it appears that he has devoted himself to the task of getting his Aunt Tish out of trouble, until he falls in love with Ellen Leighton, the proprietor of the hotel.

Tish constantly badgers her sisters, Lizzie and Aggie, who, it appears didn't want to come to the Southwest. She also manages to smash in the store front of Luther Hopkins, the villain. He holds a mortgage on Ellen's hotel.

Action develops in the form of a bandit who terrorizes the countryside. The sheriff, however, appears to be too infatuated by Lizzie to bother with sleuthing.

Ends Happily
Tish sets out to capture the bandit by guarding the safe in the hotel, with the dubious aid of Lizzie and Aggie. Lizzie and Aggie are dragged by the bandit and he robs the safe, taking the money Ellen has saved to pay off Luther Hopkins.

Tish comes through in the end, however, by unmasking Denby Grimes who says he is a Hollywood producer. The money is recovered and Ellen is able to pay off the mortgage.

It all ends happily, as Ellen and Charlie after a few Mickey Jewett lovers' quarrels, decide on marriage. A secondary love affair between Wesley Andrews and Bettina Trent also ends well. However, the audience is left to guess what happened between Sheriff Lem Pike and Lizzie.

Support Players Star
Acting honors were carried off by two supporting players, Hazel Hecker as Aggie, and Dwayne Stephens as Sheriff Lem Pike. Aggie provided most of the humor by her delightful characterization of a sick old maid. Her jibes at Tish, who constantly badgers her, brought snickers and belly-laughs from the audience.

Although Sheriff Lem Pike probably wouldn't have caught cold in Lee county, he appeared a typical sheriff of the fabulous Southwest, smooth talking and easy-going. It seemed a shame that he couldn't have appeared in more scenes than he did.

Love Scenes? Well?
Nan Richards was Tish, and she appeared in character. Tish was as harum-scarum as possible, in keeping with the part.

The love scenes were far from being dramatic or tender, but in

French Demand Stronger Voice

WASHINGTON, (AP)—French Foreign Minister Robert Schuman arranged a meeting today with Secretary of State Acheson to demand a stronger voice for France in Mediterranean defense strategy.

Schuman, here with French President Vincent Auriol, reportedly is peeved that France was left out of a series of secret British-American meetings on the island of Malta earlier this month.

Asia Policy Failure Aids Reds--Douglas

ST. LOUIS, (AP)—U. S. Supreme Court Justice William O. Douglas declared last night that America's failure to adopt a positive, aggressive policy in Asia is helping the Communists to win the political battle there.

"We operate purely at the negative level," Douglas declared in an interview. "We are the bedfellows of everyone who is against Communism, which puts us in partnership with many of the worst crooks in the world."

India Exception

Douglas was in St. Louis to discuss his travels last year in the Middle East and Southeast Asia in a lecture at the Racquet club, an exclusive group of professional and business men.

India, Douglas said, is an exception to Communist progress in Asia. He said Prime Minister Nehru is in charge of a real dynamic, non-Communist reform program.

"I don't agree with him on many things, but I think Nehru is a friend to support at the political level," Douglas declared. "Nehru understands Asia and the United States does not—neither does Asia understand the United States."

Think at Wrong Level

Douglas said the United States thinks in terms of armies and troops, "when the battle is going to be lost at the political level."

The decision, he added, will depend on the political astuteness of America's foreign policy.

List Critical Targets for Enemy Planes

WASHINGTON, (AP)—Civil Defense Administrator Millard Caldwell has told a congressional committee that any air attack on this country probably would come across the polar regions to strike first at the Northwest and the industrial Northeast.

A house appropriations committee report made public today also quoted Caldwell as having described as "critical target areas" Washington, Baltimore, Richmond, Atlanta, Birmingham and St. Louis. He referred to Chicago, Seattle, Portland, San Francisco, St. Paul and Los Angeles as other likely objectives of enemy attack.

Committee Chairman Cannon (D-Mo) said Gen. Hoyt S. Vandenberg, air force chief of staff, told the committee "at least 70 per cent" of an attacking air force would be able to reach their U. S. targets.

This testimony was given during secret committee hearings on the defense agencies' requests for money.

Food Crisis in India Serious

NEW DELHI, India—(AP)—Clifford C. Taylor, agricultural counselor of the United States embassy here, said today the food shortage in Bihar state is "the most serious in India and building up to a critical situation."

Taylor has just returned from a three-day tour of Bihar. The already serious shortage, he said, will be aggravated when seasonal rains disrupt railroad service in Bihar at the end of April.

New Envoy?

THE HAGUE, The Netherlands, (AP)—Well informed diplomatic circles here said today they expected that the U. S. ambassador to The Netherlands, Selden Chapin, soon would be replaced.

The same circles indicated that the U. S. government was considering the appointment of Mrs. Perle Mesta, minister to Luxembourg, to the post of ambassador to The Netherlands.

Gang Revenge Seen in Death Of Ex-Convict

CHICAGO, (AP)—An ex-convict was shot to death early today by four masked men in possible gangland vengeance.

The dead man was Fred Brissa, 46, a perfume and cosmetics salesman who police said had turned government witness two years ago in a \$20,000 liquor theft trial. Police began an immediate search to question five men who were sentenced to prison with Brissa in the case.

Brissa's wife, Dorothy, 30, told police she and her husband had just returned home and he had stepped out of the car to open the garage doors when he was shot down.

She said the gunmen were

waiting and called to Brissa as he got out of the car. He walked toward the gunmen and a shotgun blast ripped his face. The slayers then fled.

Police said Brissa and three others of the five pleaded guilty to theft of 300 cases of whisky in April, 1949, and that two were convicted at trials. They were sentenced April 20, 1950, and Brissa was released from prison in February.

U. S. Traffic Deaths Mount In February

CHICAGO, (AP)—The nation's traffic deaths continued their upward trend in February, for the 15th consecutive month, the National Safety Council said.

The February toll of 2,300 was four per cent above February, 1950, the smallest increase since December, 1949. Virtually all the increase was in the Rocky Mountain and Pacific Coast states.

A partial cause of the steady increase in traffic fatalities, the council said, was a continuing increase in motor vehicle travel.

Traffic accidents killed 5,190 persons in the first two months this year, an increase of 11 per cent over the corresponding period last year. The council said 227 cities have reported no deaths up to March 1.

No Strike

CLEVELAND, (AP)—The CIO-United Rubber Workers gained a union shop from the Goodyear Tire & Rubber Co. in a contract announced today.

The contract wipes out a threat of a nation-wide strike by 25,000 URW workers in 10 Goodyear plants, the union declared.

Bradley, Wyoming Meet in Tourney

Utah to Face Syracuse in 2nd Encounter

Skyline Conference Teams Shoot for All-West Finish

PEORIA, (AP)—Wyoming and Utah, most impressive in the first round of Bradley's National Campus basketball tournament, tonight shoot for an all-Skyline conference windup.

Wyoming, hitting .512 in the first half to trounce Duquesne 78-61 in the first round, goes against host Bradley. The Braves downed Western Kentucky 75-71 to advance.

Utah meets solid and methodical Syracuse after out-gunning favored Villanova 67-65. Syracuse moved up with a 69-52 count over Toledo.

Finals Saturday Night
Wyoming and Bradley tangle in tonight's opening semifinal game at 7:30 p. m. (CST). The finals are tomorrow night.

Bradley, with a 31-5 season record, still rules as tournament favorite despite a sub-par showing against Western Kentucky. The Braves figure they need vast improvement to defeat Wyoming (26-9) which flashed 20 point performances by Moe Radovich and Dick Haag in walloping Duquesne.

Utah (22-12) upset Villanova with Glen Smith's 19 point burst in the second half and clever assistance from Glenn Duggins and Jim Cleverly.

Size May Backfire
The size that carried Syracuse (17-8) past Toledo may backfire against the Utes. The Orange must stop smaller Utah's blazing speed. Utah also has tradition on its side, being considered a fine "tournament team." The Redskins swept to the NIT and NCAA championships in the mid-1940's.

Bradley is the current Sugar Bowl champion and finished second in both the NIT and NCAA meets last season with virtually the same team.

Allen Says AP Misquoted His Remarks

NEW YORK, (AP)—Dr. Forrest C. (Phog) Allen, famous basketball coach at the University of Kansas, said today he was not quoted fully by the Associated Press in his remarks Wednesday concerning Bobby Reynolds, All-America halfback at the University of Nebraska.

The AP story quoted him as saying:

"I was told that Bobby Reynolds was offered \$10,000 and a Cadillac to go to some other school. He didn't go. That raises the question of what he gets at Nebraska."

Dr. Allen said he then added:

Addition Told
"Bobby Reynolds was a boy that did not need money and he let his loyalty to Nebraska decide where he wanted to go."

Ted Smits, AP general sports editor who covered Dr. Allen's speech at a luncheon given by the New York Herald Tribune for its annual East-West basketball game, said he did not hear Dr. Allen make this later amending remark. Smits was near but not at the speaker's table. However, Irving T. Marsh, assistant sports editor of the Herald Tribune, who was sitting next to Dr. Allen, said Dr. Allen, a rapid-fire speaker, did amend his remarks.

Quoting Glassford
"As a matter of fact I was only quoting Bill Glassford (football coach at Nebraska)," Dr. Allen said today. "Glassford told of the incident at a banquet at St. Benedict's college at Atchison, Kas., three weeks ago."

(In Lincoln, Neb., Glassford denied having made the remark.)
"Actually I was complimenting Glassford for having that kind of boy at Nebraska," said Dr. Allen.

Jimmy Thompson In Exhibition at Emerald Hills

Two of golf's better-known names, Jimmy Thompson and Marilyn Smith, will make a late summer appearance at Emerald Hills golf club, according to owner-manager Paul J. Long.

Thompson and Miss Smith are slated to appear Aug. 12, in an exhibition that will be free to club members. There also is a good chance that Patty Berg will give an exhibition at Emerald Hills in June, Long said.

In announcing dates for the coming season, Long said that six dances have been arranged and weekly men's nights are again planned.

Emerald Hills is a member of the Blackhawk district golf association and also a member of the Chicago DGA.

Larry Wanamaker once again is pro at Emerald Hills, which is in the midst of its annual membership drive.

THESE OHIO ATHLETES SPURNED HORSES

VERSATILITY MARKS THIS group of Ohio athletes who helped entertain the big audience attending the banquet in their honor in the Ohio gym Thursday night. Pictured singing "Give a Man a Horse He Can Ride," these Ohio gridders and cagers did well this season under Coach Chuck Vail without the help of horses. Picture above in the front row, starting with bow-tied Ed Sisler, are Jim Fahs, Lewis Sisler, Michael Knuth, LaVerne Arbuckle and Ted W. Anderson. In the back row, left to right, are Ben Johnson, Pete Krapff, Ted Piper, Don Fitzpatrick, Hank Donnelly, Ted C. Anderson and Gene Nothnagel.

Purdue Relays Set To Open Saturday

LAFAYETTE, Ind., (AP)—A strong field of hurdlers, sprinters and vaulters will throw spikes at national and meet records in the ninth annual Purdue relays tomorrow afternoon and night.

Thirty-three teams entered in the event, climax of the collegiate indoor track season, form the biggest list in its history.

The field has all the teams that have won top honors in major midwestern meets this season, along with Kentucky and three entries from the Big Seven.

The talent includes Illinois' Big Ten champions, Marquette's Central Collegiate title holders, Wheaton's North Central co-champions and Beloit's Midwest titlists.

Each event will be contested on an individual championship basis, with no team scoring. The system puts athletes where they are most likely to turn in their best performances and avoids jockeying for place points.

PHILS PROSPECTS

Konstanty Holds Key to Phils' Hopes for 2nd Straight Flag

By JACK HAND

CLEARWATER, Fla.—(AP)—Jim Konstanty, the Philadelphia Phillies fabulous relief pitcher, is the key to the Whiz Kids' chances of repeating in the National league.

If Big Jim (16-7) can repeat his efficient 74-game chore of 1950, the Phils should have few serious problems. But Joe Page, Wilkey Moore and Firpo Marberry can tell you how hard it is to put together two straight outstanding years in the bullpen.

Konstanty, a 34-year-old "cutie" with a baffling slider and palm ball, is confident he can better his phenomenal 1950 record.

It is difficult to overestimate Konstanty's importance in the Phil picture. In addition to his 16 victories, he saved 24 other games credited to other pitchers. Six of Curt Simmons' 17 wins go in that category and two of Robin Roberts' 20.

Simmons Sub Needed

Replacing Simmons (17-8), who went into the army a month before the World Series, is Manager Eddie Sawyer's main job. He looks for natural improvement in Bubba Church (8-6) and Bob Miller (11-6), two younger pitchers who did not take regular starting turns until June.

Russ Meyer (9-11) and Ken Johnson (4-1) are counted on to take up some of the slack left by Simmons. Meyer was a bitter disappointment last year after winning 17 in '49. If he can conquer his own fiery temper, he can be the No. 4 starter.

Johnson Wild
Johnson traded to the Phils by St. Louis last April, has a chronic wildness. If he can get the ball over he can be as good a pitcher for the Phils as Jim Hearn, another Card discard, was for New York.

Roberts (20-11) whose great 10-inning job on the final day clinched the pennant, is the ace. The 24-year-old righthander went the route in 18 of his victories last season. He is improving all the time.

Sawyer banks on Ken Heintzelman (9-9), 35-year-old lefty to approach his 17-game winning form of '49. He worked only two complete games last year.

Leo Cristante, trying the big jump after an 18-5 year in class B with Wilmington, has been impressive. He is competing with Blix Donnelly (2-4), Milo Candini (1-0), Jocko Thompson (10-14 at Toronto) and Jack Brittin (7-11 at Toronto) to stay on the ball club. Sawyer plans to keep only nine pitchers.

"Brooklyn is the team to beat," said Sawyer. "Don't forget we had to come from behind 47 times last year. We're going to have trouble making up for Simmons. And we don't know if Konstanty can do it again."

Rocket Fires, Montreal Wins

DETROIT, (AP)—No doubt about it, Maurice (The Rocket) Richard of the Montreal Canadiens ranks as one of the National Hockey league's greatest clutch players. When the chips are down Maurice comes through.

If in doubt, ask the Detroit Red Wings, who are defending the Stanley Cup, hockey's most-prized trophy.

Richard whizzed in, and broke up a sudden-death overtime game here last night to give Montreal a 1-0 win—and, what's more important, a 2-0 edge in their best of seven semi-final Stanley Cup series.

South Beloit Wins Playoffs; Kolts Lose

ROCKFORD—South Beloit captured the Northern Illinois AAU playoff crown here Thursday night, defeating the Rockford Blackhawks, 92-62, in the final game.

In the consolation game, the Rockford White Eagles defeated the Mt. Morris Kable Kolts, 79-59, for third place.

Jim Smith led South Beloit in the scoring column with 24 points on nine baskets and six free throws. The Beloit bombers turned on the power in the second half after leading only 37-31 at the intermission.

The Kolts, playing without Del Miller, their flashy forward, trailed 41-27 at halftime and never threatened thereafter. George Blanchard paced the Kolts with 16 points on six baskets and four free throws.

Gavilan Slight Choice Over Hairston

NEW YORK, (AP)—Two of the ring's busiest fighters, welterweight contender Kid Gavilan and Gene Hairston, rising, young middleweight, clash in the main ten-rounder at Madison Square Garden tonight. Gavilan, the kid from Cuba, is the 7 to 5 choice to avenge an old defeat and run his current winning streak to seven. Hairston, a 22-year-old deaf-mute, hasn't lost in 13 months. A 12 win, one draw, streak has boosted the strong New York Negro into the No. 6 spot in the middleweight division.

This probably will be the 25-year-old Cuban's last fight before he takes on Johnny Bratton, the NBA welterweight champion, in a title scrap in the Garden May 18. Matchmaker Al Weill of the International Boxing club will seek New York's title sanction for the fight today. He probably will get it.

Gavilan Must Win
That makes it doubly important for Gavilan to win.

"People seeing title fight expect to see a winner," said the practical Cuban. "More people come see me fight if I beat Hairston. Hairston good fighter, but maybe I not in best shape when I lose to him. Now I'm in best shape of last couple of years. I win."

Hairston, of course, has the same optimistic attitude. The youngster, a good body puncher with an aggressive style, is regarded as the middleweight division's most promising youngster. He is being groomed for a crack at the middleweight title. Right now champion Ray Robinson is far too good for him. And that's no rap.

Hairston Won 1st

In their first meeting, Hairston outwitted Gavilan 153 to 150, and won a split decision. That fight took place five months ago in Scranton. Gavilan was not going too well at the time and carried too much weight.

Hairston has been growing. He weighed 150 for his last couple of fights and the poundage suited him. He will have to make 156 tops for tonight. Gavilan probably will hit around 148 or 149.

The 9 p. m. (CST) bout will be broadcast by ABC and telecast by NBC.

Western State Coach Praises Vail in Talk

12 Awarded Double Letters for Fine Season's Record

By HUGH HOUGH (Telegraph Sports Editor)

OHIO—Twelve double-duty Ohio high school athletes received letters for both football and basketball here Thursday night as Ohio paid tribute to its players and Coach Chuck Vail.

Leroy Morely, coach at Western State Teachers college at Macomb, where Vail graduated, was the main speaker at this civic event sponsored by the mothers of the players.

Morely's address was a mixture of humor and seriousness. He lauded Vail as "a coach Ohio should be proud to have." Then he told stories, mostly funny, culled from his many years in high school and college coaching.

Desire, Heart Needed

On the serious side, Morely told the Ohio players that "desire and heart" could overcome almost any physical handicap in basketball. He cited George Mikan and Scotty Steagall as prime examples. Mikan cannot see more than two feet ahead without his glasses, and Steagall, rather short and chubby for a basketball player, overcame these handicaps to become one of the game's great players.

Ohio's versatile players, winners of the Little Eight and B-L-P conference titles this season, also did double duty on the program which followed the dinner.

A chorus of 13 athletic voices led by Vance Plapp, Ohio music instructor, entertained the large crowd with three songs and then Plapp joined Lewis and Ed Sisler to play two numbers as a cornet trio.

Captains Named
Individual honors at the affair went to Pete Krapff, football captain, and Lewis Sisler, basketball captain. Captain-elect for next season's basketball squad is Bill Piper.

The 12 boys who won major letters in both football and basketball are Hank Donnelly, Lew Sisler, Duane Krapff, Art Johnson, Sam Phiemes, Jim Fahs, Gene Nothnagel, Bill Piper, Carl Morgensen, Jerry Connors and Ted Anderson.

Four other boys received awards for football only. They were Steve Downey, Bernard Donnelly, Ted Piper and Jim Ebersole.

Awards also went to the team managers, Don Fitzpatrick and Ted C. Anderson, and to the Ohio cheerleaders, Janice Krapff, Joan Doran, Nancy Narden and Edith Loder.

Lakers Move Towards NBA Title Again

(By the Associated Press)

Once more the irrepressible Minneapolis Lakers are moving towards another National Basketball association title.

With big George Mikan breaking loose for 16 points in the last quarter, the Lakers beat the Rochester Royals, 76 to 73, at Minneapolis last night in the first game of their best-of-five series for the Western division championship.

Mikan didn't start the game because of an injured ankle. It was the first time in his pro career he hadn't started. When he did

"YOU MUST HAVE LEARNED something," Leroy Morely, right, basketball coach of Western State Teachers college, tells Coach. Chuck Vail at the Ohio athletic banquet Thursday night. Vail played basketball under Morely at Macomb before accepting the coaching job at Ohio. Testimony to Vail's success in Ohio this season is supplied by the row of trophies between them.

HUGH'S VIEWS of SPORTS

By HUGH HOUGH

Some day the sociologists are going to record the story of the part the high school athletic coach plays in molding the young manhood of our country. Of course, every teacher plays a vital part in this process—for better or for worse—but the coaches have the most intimate contact with the boys; they have the best opportunity to leave their mark on the players.

A GOOD COACH, one who is a square shooter both on and off the practice field, often takes a place in the eyes of "his boys" that is akin to hero worship.

We were down to Ohio last night to attend an athletic banquet for Ohio high school football and basketball players. Ohio's coach is Chuck Vail, a big, young, good-looking fellow who rates as tops to his boys and to the Ohio fans.

HOW COULD THIS WRITER, a more or less casual visitor to Ohio, tell that Vail is so well liked in that town. It's easy. The boys give it away and so do the townspeople after a few moments of conversation.

We talked to some of the townspeople after the banquet last night and they didn't mind saying they think Vail will be welcome to stick around as long as he chooses and not just because he turned out a winner this year.

I'VE GOT SOME BOYS in grade school," one Ohio father said, "and they follow Chuck around like puppies during football season."

Vail came in for some well-earned recognition at the Ohio banquet last night, but perhaps the most glowing tribute was paid to him by his basketball coach at Western State Teachers college in Macomb, Leroy Morely.

"YOU SHOULD BE PROUD to have Chuck Vail as coach here," Morely said. "If I had a boy I would like to have him play under someone like Chuck."

Vail, who graduated from Western only two years ago, drew a laugh from the audience when he introduced his old coach.

"I was a regular before Morely came to Western at the start of my junior year," he said. "After Morely arrived I became a substitute."

MORELY HAS A SPARKLING 80 won, 29 lost record since he took over the basketball coaching job at Macomb.

THE OHIOANS, as sports-minded as a village as you could hope to find, are currently working hard to swing a bond issue that will bring them a new gym. An added talking point for the gym is the farm machine shop that is planned to go with it. According to one townsman, only four dissenting votes were cast at the last school bond referendum—on a \$125,000 bond issue. The next one, the one needed to put across the new gym, will amount to something over \$200,000.

They mention little Lewis Sisler, 1951 Ohio basketball captain, as the same type ballplayer as Bradley's Squeaky Melchiorre around Ohio. They say this driving senior will make some college a good basketball player in a year or two.

VAIL GOT A laugh from the crowd when he limped to the front of the audience to present letters to the players and a flock of trophies to Walter Smith, high school superintendent.

"I got this limp this afternoon when I was showing one of our trackmen how to high jump," Vail said, adding, "I guess I didn't do such a good job."

IN FREEPORT, Coach Harry Kimerl has admitted that he may be line for the basketball coaching spot at Marquette university.

Two Amboy boys recently were awarded letters at Illinois State Normal. They are Ronnie Ellis, basketball, and Conrad Aschenbrenner, swimming.

come in he was held to six points until the vital last period. Then he rimmed seven baskets and nine shots to put the Royals on the skids.

At one time, Rochester was ahead by eight points, but the Lakers rallied to go ahead in the third quarter.

In Syracuse, N. Y., the Syracuse Nats squared their Eastern division playoffs at one game apiece

with the New York Knicks by trouncing the New Yorkers, 102 to 80. A 21-17 first period edge sailed the game away for the Nats.

Chicago Golden Glovers Win

Europe's Best Downed, 6-2, By Yanks

Nate Brooks Most Impressive Boxer In Colorful Show

CHICAGO, (AP)—Conditioned to a peak and as eager to romp as colts in a pasture, Chicago's Golden Glovers team downed Europe's best amateur boxers 6-2 in Chicago Stadium last night to continue dominance in the International series.

A throng of 15,859 cheering fans had the time of their lives during the fast-paced matches brimming over with sportsmanship manners seldom seen in U. S. rings.

The Europeans won the first and last bouts—in the flyweight and heavyweight divisions. But they were ineffective in between as they lost for the 13th time in the 14 International shows. Their only win was 5-3 in 1939. Last year they lost 6-2.

No Knockouts

There were no knockouts. But Ken Davis, the fighting marine from Camp Pendleton, Calif., Bobby Jackson or Cleveland and 18-year-old Ingemar Johansson of Sweden, youngest of the invaders, scored technical knockouts.

Johansson, a 190-pounder with a sizzling right, won the heavyweight crown from Cleveland's Ernest Fann with a third round TKO.

Davis took the featherweight title with a first round TKO over Pauli Dufva of Finland. Jackson stopped Marcel Limagne of Belgium in the first for the lightweight crown.

Blacksmith Wins

Besides Johansson, the only other European winner was 21-year-old Pentti Hamalainen of Finland. He claims to be the smallest blacksmith in the world and his sledge hammer blows easily gave him the flyweight title over Joe Casteneda of Chicago.

Hamalainen was the only European champion to return from last year's squad and made his invasion a success with a repeat in the 112-pound section.

Probably the most impressive fighter of the evening was bantamweight Nate Brooks of Cleveland. The smooth working, hard-hitting 17-year-old youngster emulated the style and finesse of his idol, Sugar Ray Robinson, in a one-sided win over Jacques Dumesnil of Paris. It was the first defeat for Dumesnil in three years.

Brooks Scores Sweep

Brooks won the 1950 Golden Gloves intercity and international flyweight titles and also scored a sweep this year as a bantamweight.

Other bouts. Lightweight—Bobby Bickie, Fort Riley, Kans., soldier, outpointed Leif Hansen of Norway; welterweight—Willard Henry of Kansas City outpointed Pavle Sevljanski, Yugoslavia; Europe team captain; middleweight—Richard Guerrero, Chicago, outpointed Stig Sjolin, Sweden.

Nat Holman, CCNY basketball coach, once proclaimed that Lou Boudreau of Illinois was the finest dribbler he ever saw. It's the same Boudreau who formerly managed the Cleveland Indians and now is with the Boston Red Sox.

LOSES 30 LBS. No Diet Recipe

Mrs. C. W. Bates of 114 N. 6th St., Rochelle, Ill., writes, "Rennel Concentrate is a wonderful product. I lost 30 lbs. with no ill effects—regained appetite, regular meals. No more bloated feeling thanks to Rennel. I can recommend Rennel for reducing for it's an excellent tonic."

It's amazing how quickly you can lose pounds of bulky, unsightly fat right in your own home. Make this recipe yourself. It's no trouble and costs little. Contains nothing harmful. Ask your druggist for 4 ounces of Rennel Concentrate. Pour this into pint bottle and add unsweetened grapefruit juice to fill bottle. Then take two tablespoonfuls twice a day. It's that simple. If reducible pounds and inches of excess fat don't seem to disappear almost like magic with the first bottle, return it to the manufacturer for your money back. Note how bloated disappears—how much better you feel. Now is the time to reduce. Ask your druggist for Rennel.

Advice Welcome From Mack: Dykes

WEST PALM BEACH, Fla., (AP)—Connie Mack has not exercised his prerogative as Philadelphia Athletics president to give advice on how to run the club, but Manager Jimmy Dykes would be all ears if he did.

"Let me tell you," Dykes said yesterday, "any time Connie Mack wants to give me some advice about the team I'll be listening. . . . does anyone know the game better?"

The cause for Dykes outburst was rumors that the 89-year-old club president was "meddling" and causing team dissension. Mack retired last year after 50 years of managing the Philadelphia American league club.

Tom Lynch, a former umpire, was once president of the National Baseball League.

Furgol Nursing Slim Lead in Azalea Tee Meet

WILMINGTON, N. C., (AP)—Marty Furgol, 20, the second straight week, nurses a slender lead going into the second round of a \$10,000 open golf tournament.

The Long Beach, Calif., pro, who has won more than \$4,800 this year for fifth money honors, was working on a five-under par 67 as the second round of the Azalea open got under way today.

His work was cut out for him here as 15 players, all under par,

were at his heels, no more than four strokes away.

Furgol dropped two 25-foot birdie putts and another from 20 feet yesterday.

A stroke back of Furgol were professionals Jim Ferrier of San Francisco, and Mike Homa of West Hartford, Conn., and amateur Harvie Ward of Southern Pines, N. C.

Ferrier, leading money winner this year with more than \$9,600, continued the play which has given him three victories and a second this month.

The Quilting Party

The serious work of providing our ancestors with warm bed coverings for cold winter nights was a time for helpful cooperation. The neighborhood women grouped themselves around a large table and painstakingly fastened the covering of the quilt to the lining and its soft layer of cotton padding.

Red Cloud's Last Stand Wins Congressional Medal of Honor

WASHINGTON — (AP) — Wounded and alone, Mitchell Red Cloud of the Winnebagoes braced himself against a tree for his last stand.

Fire from his automatic rifle slowed the rushing hordes of Chinese Communists, giving his brothers-in-arms time to reorganize and evacuate their wounded.

So he stood and fought until the enemy overran him and he died in Korea far from the home of his forefathers.

Next Tuesday the government of the United States is conferring upon Corporal Red Cloud, in death, its highest military decoration, the Medal of Honor.

His mother, Mrs. Nellie Red Cloud of Hatfield, Wis., will receive the award from Gen. Omar Bradley, chairman of the joint chiefs of staff.

Red Cloud, an American Indian from Friendship, Wis., was 25 years old when he died last fall a veteran of two wars.

As a marine in World War II, he served for a time with Carlson's Raiders. In October, 1948, he joined the army.

At daybreak on the morning of last Nov. 5, at Hill 123 near Chonghyon, North Korea, he detected the enemy approaching his outfit, Company E, 19th infantry regiment of the 24th division.

He called a warning and opened fire. Cut down by bullets from a burp gun, he got back to his feet, supported himself against a tree and fought until he died.

Red Cloud will be the eighth army man of the Korean war upon whom the Medal of Honor has been conferred.

His father, Mitchell Red Cloud, Sr., who died in 1946, was at one time a guard at the White House here, an army spokesman said. Back home in Wisconsin, he wrote columns for the Black River Falls paper, The Banner Journal.

POLO—Callers at the Walter Barton home Sunday were Mrs. Augusta Lloyd, Oregon, Mr. and Mrs. A. M. Johnson, Mr. and Mrs. Lyman Rife, Mr. and Mrs. Alfred Rogers, Mrs. John Kline and Foster Yeater. Dean McCartney, who is home from Champaign for the Easter vacation, was a caller Monday afternoon.

From Dixon
Mrs. Anna Sofoto, Dixon, visited Miss Kathryn Keagy Tuesday evening.

In Wisconsin
Mr. and Mrs. Ralph Ports and Shirley spent the weekend with Mr. and Mrs. Albert Bockel and Mr. and Mrs. Ogden Rothe at Green Bay, Wis.

Back Home
Mrs. Charles Davis who recently had surgery at KSB hospital returned home Tuesday.

In Hospital
Mrs. Mary Ports was admitted to KSB hospital for observation Wednesday.

OPS Meat Permit Not Required by Small Butchers

WASHINGTON, (AP) — The Office of Price Stabilization (OPS) today made it clear that resident operators of farms who shipped less than 6,000 pounds of meat in 1950 do not have to register under the livestock slaughter regulation of Feb. 9.

The regulation as originally written required them to register unless all the livestock was slaughtered on their own farms. But the OPS said this was not the "intent" of the regulation, and a clarifying amendment was issued today.

Expansion Plans

CHICAGO, (AP) — Conrad N. Hilton, president of Hilton hotels corporation, today disclosed plans to extend the Hilton chain across Europe.

He said new hotels will be built in Rome and Istanbul, Turkey, with the aid of money from the Economic Cooperation Administration and private European hotel interests. The Hilton organization, he said, will manage and administer the hotels.

"I want to consult with Illinois' lawmakers and show them how beneficial my product really is," he replied.

Odds Against War in Three Years - Stassen

CHICAGO, (AP) — Harold E. Stassen said today that the odds are against a world war in the next three years.

The president of the University of Pennsylvania told the executives club of Chicago in a prepared speech.

"Careful study convinces me that if the Soviet Union starts a war tomorrow or at any time in the next three years Russia will be destroyed at home by American air and atomic strength and will face a counter-revolution of many millions of people now imprisoned in her empire."

"The Kremlin leaders know this, and therefore I place the long odds on no world war in the next three years."

Stassen said that the free nations of the world "can and should be able to place in the field throughout the world 190 excellent well armed divisions within three years."

The United States uses about half the world's supply of tin.

Hadacol Alky Preservative Says Le Blanc

NEW YORK, (AP)—The head of the Hadacol company says he wants to convince Illinois lawmakers they were wrong in adopting a resolution concerning children's testimonials about his product.

The legislature urged the company, through the resolution adopted Wednesday, not to use testimonials of children in advertising in Illinois. The resolution said such testimonials "appear to be of doubtful propriety," and added that Hadacol contains from 12 to 14 percent alcohol.

Dudley J. LeBlanc, state senator of Louisiana and head of the company, attributed the legislature's action to "a few individuals connected with the American Medical Association." He said that a child taking the prescribed dosage of Hadacol would "not get a drop of alcohol." The alcohol in the product, he said, is only a preservative.

LeBlanc, here on business, was asked if the use of children's

Six Children Die in Flames

SOUTH KINGSTON, R. I. — (AP)—Six children—ranging in age from one to 12 years—perished early today in a fire which destroyed their two-room home.

Mrs. Cora Young, the victims' mother, was taken to South County hospital suffering from burns. Leonard Young, the father, who was at first believed to be a victim of the fire, was found in nearby Kingston.

Cause of the fire was not immediately known.

Prairie City Scorched by \$30,000 Fire

PRAIRIE CITY, (AP) — Approximately a third of Prairie City's business district was destroyed by fire early today.

Flames broke out shortly after midnight in a dairy owned by Morris Smith. Before the fire was brought under control at 6 a. m., it had destroyed the dairy, the Ellis Dry Goods store, the Mead Brothers grocery store, and a number of apartments above and behind the stores.

An adjoining cafe was damaged by smoke and water.

Firemen estimated total damages at \$30,000.

Two firemen were cut by glass. There were no other injuries.

Fire departments from Avon, Bushnell, Abingdon, Macomb and Fairview helped the Prairie City fire department fight the blaze. Water had to be pumped from cisterns and wells.

Prairie City, with a population of around 600, is about 15 miles northeast of Macomb.

Allowing for evaporation, 28,320 gallons of water are required to irrigate one acre of land one inch deep.

When the Russians owned Alaska they called Mt. McKinley "Bolsheya," meaning "the Great One."

File Murder Charges for Twin Slaying

RIVERSIDE, Calif. (AP) — Double murder charges, plus five other felony counts, faced Air Force Sgt. Lawrence J. Walker today as steps were taken both against him and in his possible defense.

The 20-year-old Negro from Newark, N. J., was arraigned on charges of murdering Mr. and Mrs. Richard Cook, both 18, on the desert and hustled back to his cell yesterday. Friday, April 13, 1947.

was set for preliminary hearing. Walker has admitted sideswiping Cook's car on a lonely desert road, but denies the slayings. He said he drove on, leaving Cook standing by his car.

Deputies found Cook's body sprawled beside the car last Monday, with his eight-month-old son Philip playing on a blanket nearby. Mrs. Cook's body was found two days later, 14 miles away.

Other charges filed against Walker include raping Mrs. Cook, kidnapping and raping Mrs. Betty Maund of Riverside Feb. 24 and assaulting her escort, James R. Hicks.

Net income of U. S. farmers in 1950 was about \$13 billion—27 per cent below the postwar peak in 1947.

U. S. Postal Note Will Go Out of Use

WASHINGTON, (AP) — The U. S. postal note will go out of use after tomorrow, concentrating post office handling of money for the public in the standard money order system.

The plan for discontinuance was announced last October in connection with a broad program for simplifying the post office department's accounting system, involving the use of automatic card computing machines.

After June 30 of this year, money orders will be issued in card form, with pre-punched identifications, replacing the familiar paper money order slip. Such cards will be readily cashable at any postoffice or bank, eliminating the red tape now involved in cashing money order elsewhere than the office on which it was issued.

Money orders may be bought in amounts up to \$100, at a sliding rate. The postal note has been available for purchase in amounts up to \$10 since 1945, at a fee of eight cents, but has never had the wide popularity of the regular money order. It has been used chiefly to avoid sending small sums of cash through the mails.

YOU MAY BE DEAF!

Test Yourself!

Although only a specialist can scientifically determine the type and amount of hearing loss, answering the following questions may give you a clue as to whether your hearing is up to normal.

Write Yes or No

- Do you find people seem to be "mumbling" or slurring their words when they talk to you?
- Do you hear better in noisy places than in quiet ones?
- Are you bothered by head noises or "ringing" in the ears?
- Do harsh loud noises seem actually painful?
- Do you find that, at one moment, you cannot hear someone speaking to you and, at the next, they seem to be shouting?
- Can you hear the sound of a voice but find it difficult or impossible to understand what is being said?
- Do you seem to hear better with one ear than the other?
- When a group of people are talking, do you seem to have trouble hearing?
- Do you have trouble hearing when going to church, listening to the radio, television, or when seeing a movie... do you have trouble hearing your children, grandchildren?

If your answer to any one of the above questions is "Yes," you may have a hearing loss. If your answer is yes to more than one question, your hearing is probably impaired. In either case, you should send for the FREE book "New Discoveries to Help the Deaf Hear" or see your local Bellone Hearing Service Consultant at

Sight More Debris From Ocean Plane

LONDON — (AP) — Increasing evidence that a plane with 53 U. S. airmen aboard either blew up or plunged into the Atlantic ocean in flames was reported by search vessels today.

The U. S. destroyer Benner said by radio it had picked up 105 splintered pieces of debris—30 per cent of them charred—over a 10-mile-wide area 600 miles southwest of Ireland.

The Daily Express said all signs "point to sabotage." The air force refused to discuss this theory officially.

U. S. Third division headquarters here said a navy reserve officer aboard the Benner "has positively identified one piece of plywood as floorboard material."

The huge transport plane vanished one week ago on a flight from Limestone, Me., to the American air base at Mildenhall, Eng.

"Only a violent explosion could have so torn to shreds a huge plane capable of carrying 150 men or many tons of cargo," said the Express in discussing the sabotage theory.

"And unless the U. S. authorities find some inherent fault in the Globemaster planes, there is only one plausible conclusion: The explosion was planned."

Improvement of Human Relations Duty of Schools

CHICAGO, (AP)—Educators of the North Central Association of Colleges and Secondary schools were told today that it is up to them to improve human relations.

Harlan W. Hamilton, dean of the school of arts and sciences of Western Reserve university, addressed the second general meeting of the association.

"We must look to educators," he said, "not for cold bodies of knowledge, but for the living record of man's long struggle to achieve his full stature as man—to attain the dignity and respect which he is now offered by the American Democratic ideal."

The association consists of approximately 3,600 colleges and secondary schools in 19 North Central states.

Mother of Two Praises Hadacol

HADACOL Supplies Deficient Systems With Vitamins B1, B2, Nicotin and Iron

Mrs. Elmer Hise, 3225 2nd Ave., Council Bluffs, Iowa, is a good mother, and like all good mothers she keeps a careful watch for the welfare of her two young children.

And when little four-year-old Lucille Hise wasn't feeling as her mother knew she should do something about it, Mrs. Hise gave Lucille HADACOL because she had heard how much it was helping children who had poor appetites and stomach distress caused by deficiencies of Vitamins B1, B2, Iron and Nicotin. It helped her so much that now Mrs. Hise gives HADACOL to both of her children.

Here is what Mrs. Hise says: "My daughter has taken two bottles of HADACOL and she has been eating more than before and also sleeps better. I think HADACOL is the best thing for children who do not have an appetite. My daughter is four years old. Before taking HADACOL my daughter complained of her stomach hurting her, and I got her a bottle of HADACOL and she says her stomach doesn't bother her any more. I think HADACOL is wonderful. I am also giving HADACOL to my three-year-old daughter."

HADACOL is so effective. An important thing about HADACOL is that you get Vitamins B1, B2, Nicotin and Iron in liquid form which means that they are quickly absorbed and dispatched to the blood stream, ready to go right to work. HADACOL helps build up the hemoglobin content of the blood (when Iron is needed) to carry these precious Vitamins and Minerals to every part of your body.

Senator Kefauver Swept Here--

The Newsmap above shows immediate concrete results of Senate Crime Committee investigation in 12 key cities. Indirectly, the committee is credited with losing the Democrats a U. S. senate seat in Illinois and a house seat in Missouri. It has thrown the national political spotlight on quiet, easy-going committee chairman Estes Kefauver, D., Tenn., who has been mentioned as possible vice presidential candidate in 1952.

He Embezzles \$30,000, Makes 10 Grand, Offers Repayment

CHICAGO—(AP)—A postoffice clerk said yesterday he can pay back all the \$30,000 he is accused of stealing from the government and still have \$10,000 left.

Anthony Scario, assistant U. S. district attorney, said the repayment is certain because the government has impounded all the \$40,000 which Felix M. Bue, 51, had accumulated in cash, stocks, bonds and other holdings.

Bue, a bachelor, had been charged in December with theft of \$350 of postoffice money but was released on \$500 bond. A further check showed his shortage amounted to \$30,000 but Bue disappeared meanwhile. He surrendered yesterday.

Scario quoted the clerk as saying he had taken the money over a period of 12 years, always small amounts, and that the money was used for investments, conservative gambling and a modest night club entertainment.

Some of the investments were profitable, Scario said.

After June 30 of this year, money orders will be issued in card form, with pre-punched identifications, replacing the familiar paper money order slip. Such cards will be readily cashable at any postoffice or bank, eliminating the red tape now involved in cashing money order elsewhere than the office on which it was issued.

Money orders may be bought in amounts up to \$100, at a sliding rate. The postal note has been available for purchase in amounts up to \$10 since 1945, at a fee of eight cents, but has never had the wide popularity of the regular money order. 13 Injured In Fire at Ford Plant

CHICAGO, (AP) — Thirteen men fighting a blaze in a basement locker room at the Ford airplane engine factory were injured last night when flames roared through a doorway into the room where they stood.

Two of the victims were fire department officers, two were firemen, four were members of Fire Insurance Patrol No. 3, and five were plant employees.

Fire Marshal Thomas Canavan of the Fifth division attributed the sudden rush of flames to the turning on of an exhaust fan by a plant employee.

"It was turned off just in time," he declared "If it had stayed on for another minute we would have all been cremated."

Ford officials indicated they considered the blaze purely accidental. The amount of damage was not disclosed.

The plant formerly was the Tucker Corporation plant.

Claims Life Of Daughter Threatened

CHANUTE AIR BASE, (AP)—Air force and FBI agents today were investigating a reported threat against the four year old daughter of the base's commanding general.

Brig. Gen. Byron E. Gates reported an anonymous caller warned him Wednesday night "we are after you and if we run over your little blond girl you will know we mean business."

The general said his daughter, Marcia, is with her mother, Mrs. Charlotte Gates, and brother, Bennett, 10, visiting in the south.

"I told him before he hung up," the general said, "that I've been here a long time and I'm going to say right here, no matter what happens to me or my family."

Check Low Morale
A congressional inquiry into reports of "low morale" at the air base was recently completed. No report has been made of findings by the special subcommittee which conducted the inquiry.

Gen. Gates said he had received about 15 or 16 anonymous calls telling him he "wouldn't be here long as commander of Chanut." He said he decided to notify the Federal Bureau of Investigation and air force office of special investigation following the threat against his daughter.

He said the threats probably rose from changes he made at the base since assuming command in October 1944.

Seek Gas Tax Compromise to End Deadlock

SPRINGFIELD, (AP)—Gov. Stevenson says he is worried that a fight in the legislature over dividing up revenue from a proposed nickel gas tax might jeopardize his road program.

But, he told reporters yesterday, "We must work out something."

Spokesmen for cities and rural roads so far are at odds over how much of the \$100,000,000 revenue from a five cent gas tax each side should receive.

"I am concerned about the lack

of conciliation of conflicting positions of the townships, cities and counties on allocation of the tax revenue," the governor said at his news conference.

He announced he is summoning representatives of all sides to a meeting with him next Wednesday to discuss the problem.

"If we are to have any satisfactory and reasonable (gas tax) legislation there has to be some give and take," he said.

The New York Yankees have scheduled 36 exhibition games this spring. Three of the games will be played at night.
